

LC-CF-120-PRO

120 mm case fan
with silicone frame

Silicone frame

The 120 mm case fan has a silicone frame. This frame provides a vibration-free and low-noise connection with your computer case.

Novel design of the fan blades

Due to the newly developed design of the fan blades the air flow is improved and reduced the noise level to a minimum.

Long life thanks to the Fluid Dynamic Bearing

The Fluid Dynamic Bearing of the case fan is equipped with oil capsules to reduce the loss of the lubrication solvent. The result is a quieter operation and a longer life than normal bearings.
