

LC600H-12 V2.31

Office Series ATX power supply

The OFFICE SERIES by LC-POWER offers a good price-performance ratio: thanks to its 120mm fan, the LC600H-12 V2.31 lets you experience a stress-free and silent work in your office as well as at home.

Despite the low sound level, the power supply offers a good cooling capacity for your system thanks to its honey-comb styled ventilation grille on its back. The power supply features all relevant connectors of the office sector.

Including Active-PFC (power factor correction for an efficient use of the spent energy) and PCI-Express connectors for powerful graphic cards.
