

LC-CF-120-ARGB-KIT-W

3x 120 mm ARGB PWM case fan kit
with controller hub
- regular airflow -

Three 120 mm ARGB PWM case fans with up to 16,8 million selectable colours

The fans will be connected with a 3 pin ARGB and a 4 pin PWM connector to the included matching ARGB controller hub.

Then you can set the color or color mode of your choice conveniently via the mainboard software control or the included remote control.

Optimized fan blade design

Due to the optimized design of the fan blades the air flow is improved and reduced the noise level to a minimum.

Long life thanks to the Fluid Dynamic Bearing

The Fluid Dynamic Bearings of the case fans are equipped with oil capsules to reduce the loss of the lubrication solvent. The result is a quieter operation and a longer life than normal bearings.
